

Locinox Vinci Keypad Lock

A mechanical code lock for pedestrian swing gates with an aluminium housing and stainless steel mechanism.

Because there is no electricity required, this system gives you the opportunity to equip any swing gate quickly and easily to achieve access control.

The 20mm continuous adjustability of the bolts allows a perfect alignment of your locking mechanism.

The internal & external mechanisms are extremely strong & user friendly.

The latch keep below allows for perfect aligned closing of any swing gate.
